CPSC PUB #325

ADA Compliant

Kids will be quick on the Jack Be Nimble Play Structure. Younger children will not be able to get enough of this charming and compact play system. Although smaller, the fun it offers rivals the larger structures available. While approaching this unit, kids will immediately receive a warm greeting from the Elephant Panel on the second level making it a comforting place for children to enjoy. A Ship's Wheel and Bongos offer fun without leaving the ground, which is perfect for kids concerned with heights. The Pea Pod Climber acts like a ladder to the upper decking while adding a fun twist. Two is always better than one when slides are involved. Two Straight Slides jut out towards the ground leading children to restart the play process again and again. The Jack Be Nimble Play Structure may look limiting but nothing could be further from the truth.
