

Regal Style Park Bench With Back

MSRP \$798.00

SALE \$679.00

Highlights:

- Choose from a range of sizes
- Terrific for outdoor sports fields
- Large color selection to match the bench to your team colors
- Provides a comfortable resting area for parks or schools

If you are looking to add benches for your football field, softball field, or tennis courts, then the Regal Style Park Bench with Back is what you need as an airy, durable, and easy to clean option. The large diamond-shaped gaps make it trendy and functional as the holes allow air to flow through, not holding sweat or stinky smells despite continual use. The bench is constructed of nine-gauge expanded metal making it tough and sturdy. The metal is then coated with your choice from a multitude of Webcoat's protective powder coating colors. The frame is made of durable 2-3/8-inch metal to offer strong support for most weights allowing it to withstand seating of large teams for the seasons to come. Select your choice of bench length from five sizes, ranging from 4-feet to 15-feet. Finish your purchase by choosing a mounting option that fits your ground. You can choose between a portable option for most fields, an in-ground mount for grassy fields, or a surface mount for concrete sidewalks. For a backless version, view the Regal Style Park Bench Without Back.
